SAP CAPSTONE PROJECT

SAP Company Blueprint

BlueStar Manufacturing Pvt. Ltd.

Financial Accounting (FI) · Materials Management (MM) · Sales & Distribution (SD)

Field	Details
Name	Priyanshu Pandey
Roll Number	2305313
Batch	2023 – 2027 | B.Tech Computer Science Engineering
Section	CSE-04
Submission Date	April 21, 2026
Institute	KIIT University, Bhubaneswar, Odisha

Submitted in partial fulfilment of the SAP Capstone Project requirement — KIIT University

1. Project Title & Problem Statement

Project Title: SAP Company Blueprint for BlueStar Manufacturing Pvt. Ltd.

Problem Statement

Growing manufacturing organizations often struggle to manage financial accounts, procurement processes, and sales operations in isolated silos. BlueStar Manufacturing Pvt. Ltd. is a mid-sized fictitious Indian manufacturer of industrial equipment that requires a unified ERP system to integrate its Finance (FI), Materials Management (MM), and Sales & Distribution (SD) functions. This project defines the complete SAP organizational blueprint, master data structures, and key SPRO configuration steps required to implement SAP for BlueStar — fully aligned with Indian regulatory requirements including GST compliance and the April–March fiscal year.

2. Company Overview

Parameter	Value	Description
Company Name	BlueStar Manufacturing Pvt. Ltd.	Fictitious Indian manufacturer
Industry	Industrial Equipment	Motors, drives, control panels
Headquarters	Bhubaneswar, Odisha	Main plant and corporate HQ
SAP Client	100	Global SAP client for the group
Company Code	BSMP	Legal entity code in SAP
Chart of Accounts	CAIN	India standard chart of accounts
Fiscal Year Variant	V3	April to March — 12 + 4 special periods
Currency	INR — Indian Rupee	All financial postings in INR
Tax Procedure	TAXIN	India GST — CGST, SGST, IGST
Controlling Area	BSCA	Links FI to CO for cost reporting
Credit Control Area	BSCA	Central credit management for customers

3. Organizational Structure

The SAP organizational structure for BlueStar covers all three functional modules. Each module has its own set of org objects configured in SPRO and assigned to the central Company Code BSMP under SAP Client 100.

3.1 FI — Financial Accounting

FI Object	ID / Value	Description
Client	100	Global SAP client for BlueStar group
Company Code	BSMP	Legal entity — BlueStar Mfg Pvt. Ltd.
Chart of Accounts	CAIN	India standard COA assigned to BSMP
Fiscal Year Variant	V3	April–March with 4 special periods
Posting Period Variant	BSMP	Controls open/close of posting periods
Credit Control Area	BSCA	Central credit management for customers
Business Area	BA01 / BA02	Manufacturing & After-Sales Services
Controlling Area	BSCA	Links FI module to CO for cost controlling

3.2 MM — Materials Management

MM Object	ID / Value	Description
Plant	BP01	Main Plant — Bhubaneswar (Production)
Plant	BP02	Warehouse Plant — Cuttack (Storage)
Storage Location	SL01	Raw Materials Store (under Plant BP01)
Storage Location	SL02	Finished Goods Store (under Plant BP01)
Purchasing Org.	BSPO	Central Purchasing Org. for all plants
Purchasing Group	PG01 / PG02	Raw Material Buyers / Spare Parts Buyers
Material Type	ROH / FERT	Raw Materials / Finished Goods
Valuation Area	BP01	Plant-level stock valuation

3.3 SD — Sales & Distribution

SD Object	ID / Value	Description
Sales Organization	BSSO	Central sales org. for BlueStar
Distribution Channel	01 / 02	Direct Sales / Dealer Network

SD Object	ID / Value	Description
Division	10 / 20	Industrial Equipment / Spare Parts
Sales Area	BSSO / 01 / 10	Primary sales area for direct sales
Sales Office	SO01	Bhubaneswar Regional Sales Office
Shipping Point	SP01	Dispatch point at Plant BP01
Customer Account Grp.	SOLD	Sold-to-Party customer group

4. Master Data Overview

4.1 FI — General Ledger Accounts (Chart of Accounts: CAIN)

G/L Account	Description	Type	Category
100001	Cash Account	Balance Sheet	Asset
113000	Bank — HDFC Current A/C	Balance Sheet	Asset
130000	Accounts Receivable (Recon)	Balance Sheet	Asset — Reconciliation
210000	Accounts Payable (Recon)	Balance Sheet	Liability — Reconciliation
220000	GST Payable	Balance Sheet	Liability
300000	Raw Material Inventory	Balance Sheet	Asset (BSX account key)
400000	Revenue from Sales	P&L	Revenue
500000	Cost of Goods Sold	P&L	Expense (GBB account key)

4.2 MM — Material Master

Material No.	Description	Type	Plant / SLoc	Price Control
STL-SHEET-01	Cold Rolled Steel Sheet	ROH	BP01 / SL01	Moving Avg (V)
COIL-COP-01	Copper Motor Coil	ROH	BP01 / SL01	Moving Avg (V)
BIM-200	BlueStar Industrial Motor 200kW	FERT	BP01 / SL02	Standard Price (S)
BIM-500	BlueStar Industrial Motor 500kW	FERT	BP01 / SL02	Standard Price (S)
SPR-BRNG-01	Bearing Spare Part Kit	HIBE	BP02 / SL03	Moving Avg (V)

4.3 MM — Vendor Master

Vendor No.	Name	Purch. Org.	Recon A/C	Payment Terms
V100001	Tata Steel Suppliers Ltd.	BSPO	210000	N030 (Net 30 days)
V100002	Hindalco Copper Components	BSPO	210000	N045 (Net 45 days)
V100003	SKF Bearings India Pvt. Ltd.	BSPO	210000	N030 (Net 30 days)

4.4 SD — Customer Master

Customer No.	Name	Sales Area	Recon A/C	Credit Limit
C100001	Odisha Power Transmission Corp.	BSSO/01/10	130000	INR 25,00,000
C100002	NTPC Procurement Division	BSSO/01/10	130000	INR 50,00,000
C100003	BlueStar Dealer — Kolkata	BSSO/02/10	130000	INR 10,00,000

4.5 SD — Pricing Procedure ZPRIND

Step	Condition Type	Description	Sample Value
10	PR00	Base Price	BIM-200 → INR 85,000 / unit
20	K007	Customer Discount %	Key Accounts → 5% discount
30	K005	Material Discount	BIM-500 → INR 2,000 / unit
40	MWST	Output Tax (GST 18%)	Auto-calculated via TAXIN
50	VPRS	Cost (Statistical)	Internal cost reference only

5. Key Customization Steps (SPRO)

5.1 FI — Financial Accounting Configuration

Step	Action	T-Code
1	Define Company Code BSMP — Country IN, Currency INR	OX02
2	Assign Chart of Accounts CAIN to Company Code BSMP	OB62
3	Configure Fiscal Year Variant V3 — April–March (12+4 periods)	OB29
4	Define Posting Period Variant BSMP and assign to BSMP	OBBO
5	Define Document Types: SA (G/L), KR (Vendor Inv.), DR (Cust.Inv.)	OBA7
6	Set up Tax Procedure TAXIN for GST (CGST, SGST, IGST)	OBYZ
7	Configure Automatic Account Determination — BSX, GBB, WRX	OBYC
8	Define Credit Control Area BSCA and assign to BSMP	OB45

5.2 MM — Materials Management Configuration

Step	Action	T-Code
1	Define Plants BP01 (Bhubaneswar) and BP02 (Cuttack) → assign to BSMP	OX10
2	Define Storage Locations SL01 (Raw Mat.) and SL02 (FG) under BP01	OX09
3	Create Purchasing Org. BSPO — assign to Company Code and Plants	OX08
4	Define Purchasing Groups PG01 (Raw Mat.) and PG02 (Spares)	OME4
5	Configure Material Types: ROH (Moving Avg) and FERT (Std Price)	OMS2
6	Set up Movement Types: 101 (GR), 201 (GI Cost Ctr), 601 (GI SD)	OMJJ
7	Configure Release Procedure for Purchase Orders above INR 5 Lakhs	OMGQ
8	Set up Account Assignment Categories: K (Cost Centre), P (Project)	OME9

5.3 SD — Sales & Distribution Configuration

Step	Action	T-Code
1	Define Sales Organization BSSO and assign to Company Code BSMP	OVX5
2	Define Distribution Channels: 01 (Direct) and 02 (Dealer)	OVXI
3	Create Divisions: 10 (Industrial Equip.) and 20 (Spare Parts)	OVXA

Step	Action	T-Code
4	Configure Sales Area BSSO/01/10 as primary sales area	OVXG
5	Define Shipping Point SP01 and assign to Plant BP01	OVXD
6	Set up Pricing Procedure ZPRIND — PR00, K007, MWST conditions	V/08
7	Define Output Types: BA00 (Order Confirm.), RD00 (Invoice)	NACE
8	Configure Credit Management — assign Credit Control Area BSCA	OVA8

6. Project Screenshots

The following screenshots are from the SAP Company Blueprint interactive web application developed as part of this Capstone Project. The application visualizes the complete organizational structure, module configuration, master data, and integration flows for BlueStar Manufacturing Pvt. Ltd.

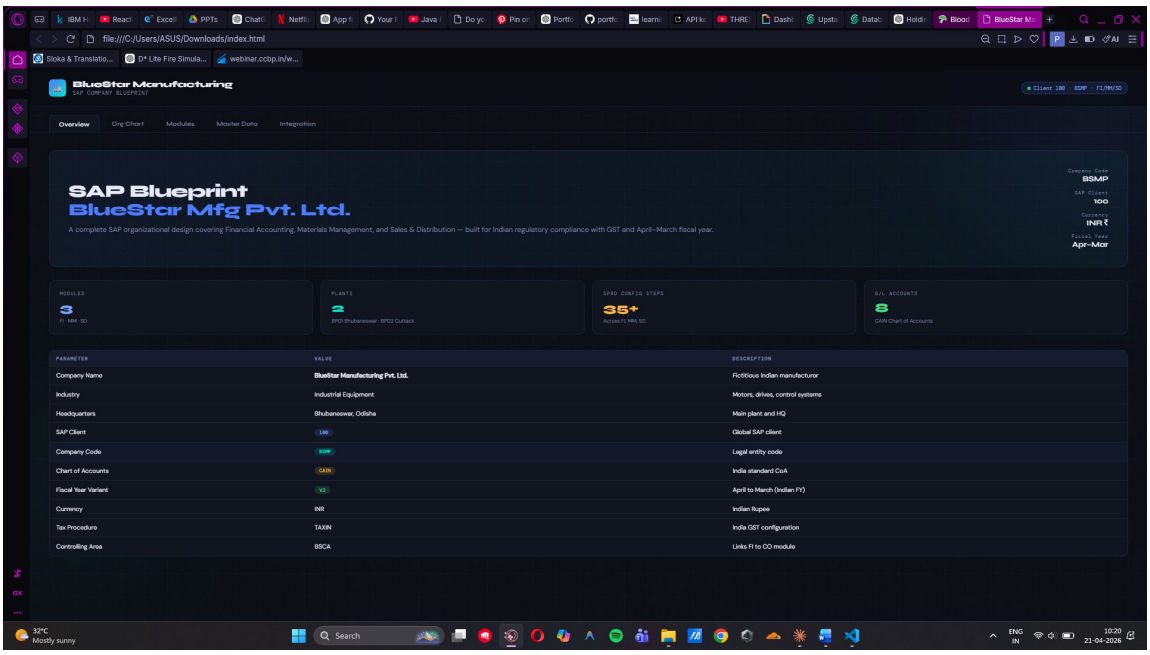

Fig. 1 — Overview: Company parameters, SAP Client 100, Company Code BSMP, key stats

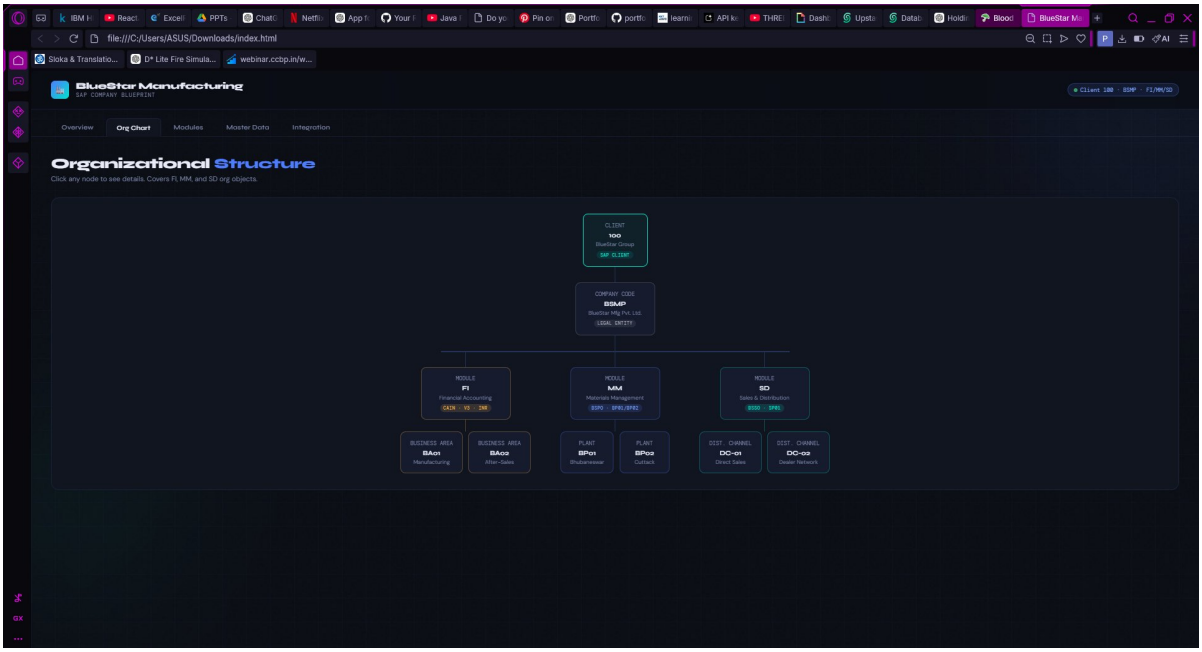

Fig. 2 — Org Chart: SAP hierarchy — Client 100 → BSMP → FI / MM / SD modules and sub-objects

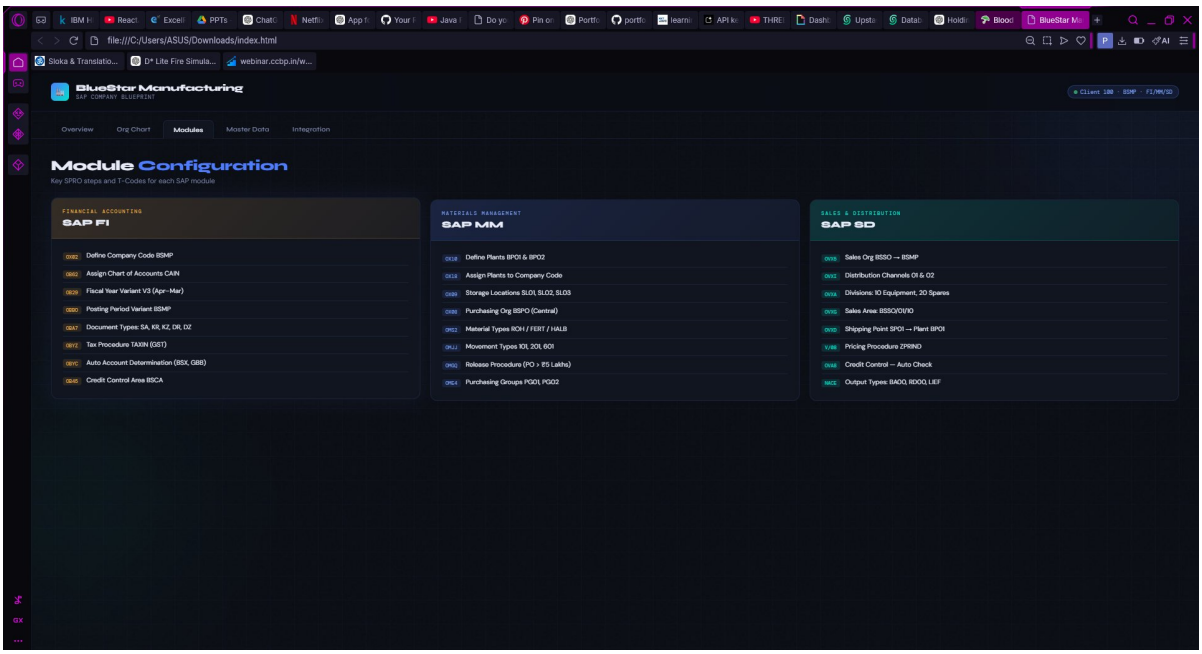

Fig. 3 — Module Configuration: SPRO steps and T-Codes for FI, MM, and SD modules

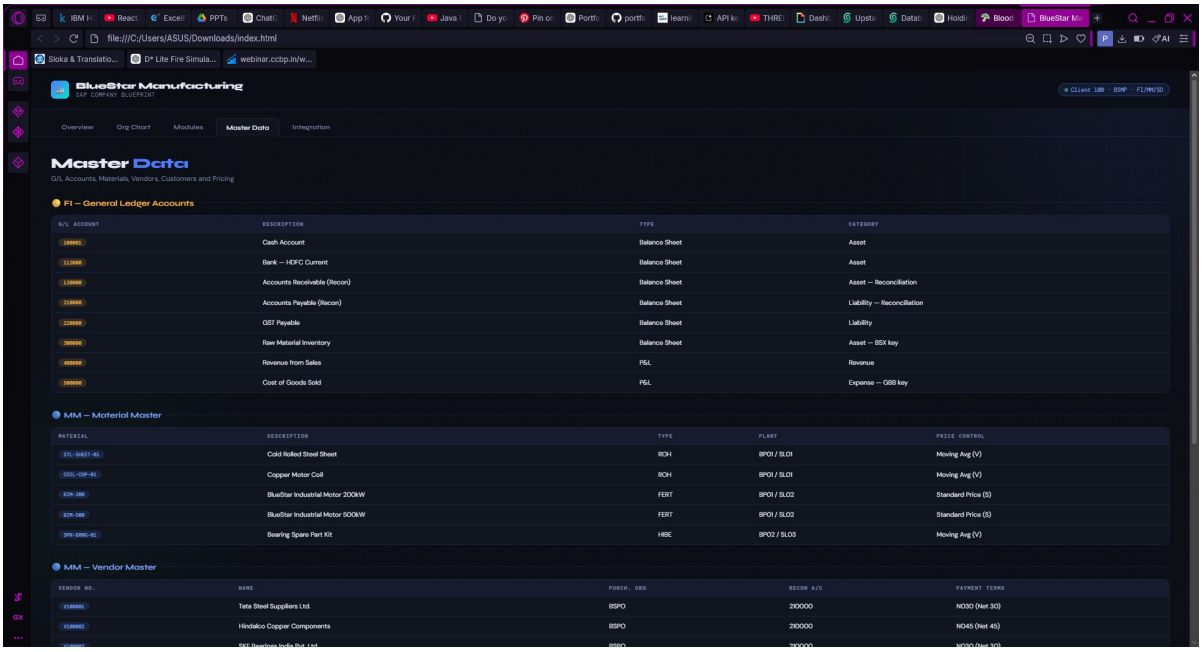

Fig. 4 — Master Data (Part 1): G/L Accounts (CAIN Chart of Accounts) and Material Master

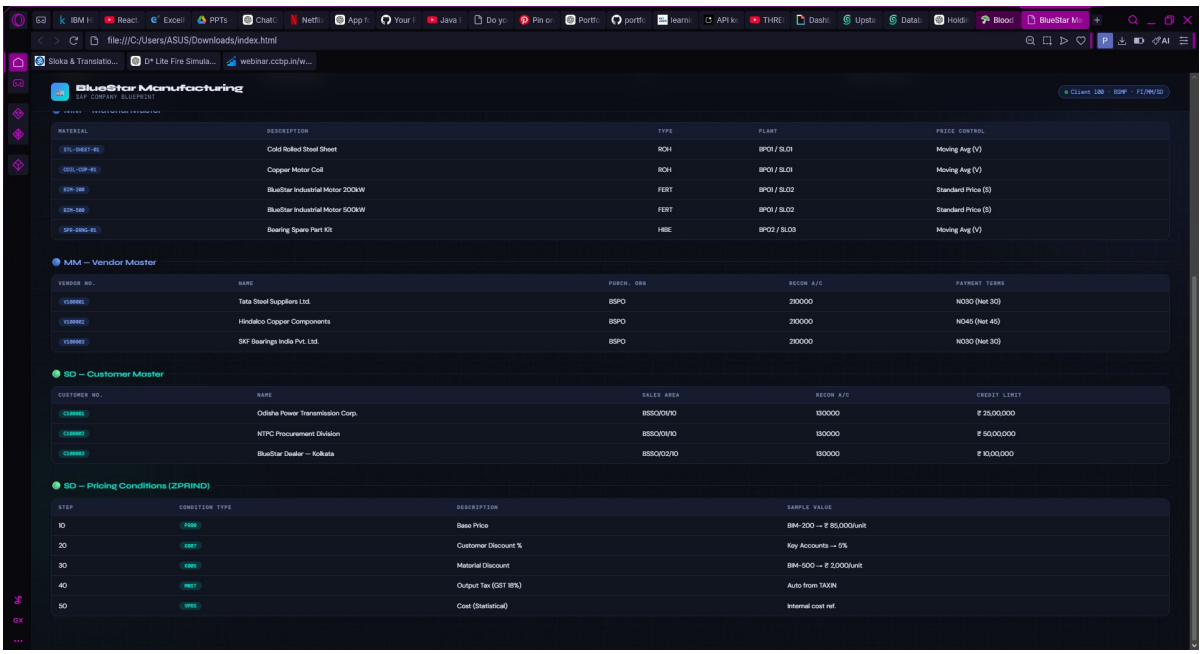

Fig. 5 — Master Data (Part 2): Vendor Master, Customer Master, and Pricing Conditions (ZPRIND)

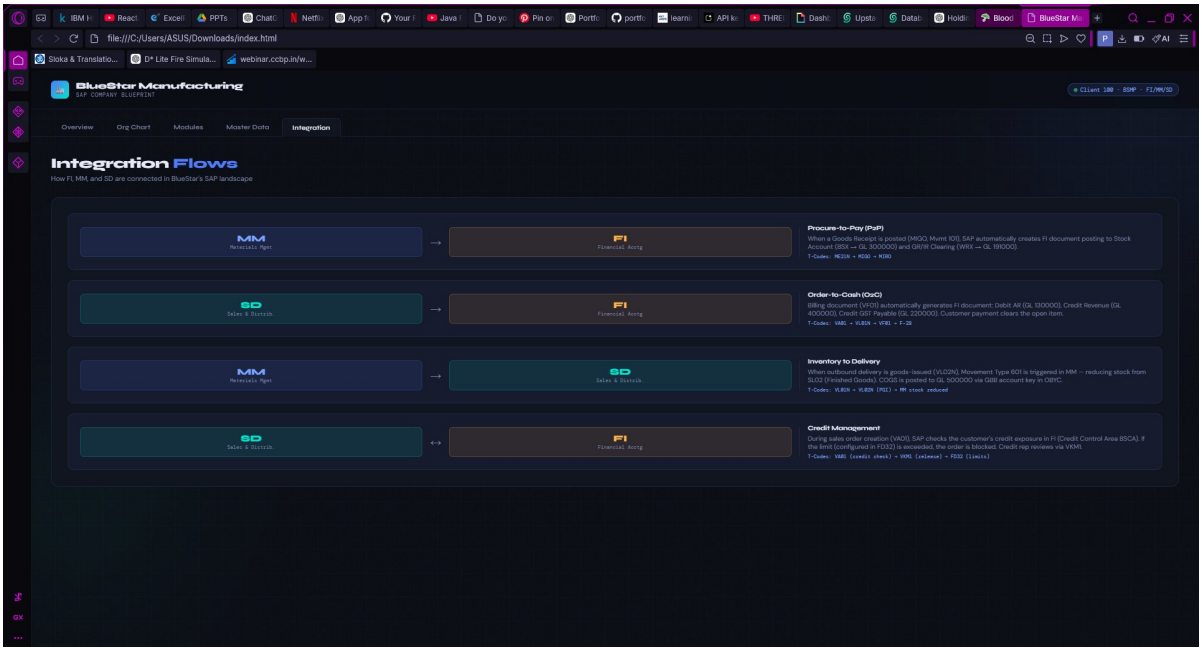

Fig. 6 — Integration Flows: P2P (MM→FI), O2C (SD→FI), Inventory to Delivery, Credit Management

7. Integration Points

All three SAP modules are tightly integrated. Cross-module postings happen automatically via SAP's account determination framework (OBYC), eliminating manual entries and ensuring real-time financial visibility across procurement, inventory, and sales.

Integration Flow	Modules	Trigger & Key T-Codes
Procure-to-Pay (P2P)	MM → FI	GR posting (MIGO, Mvmt 101) auto-creates FI document via OBYC. Flow: ME21N → MIGO → MIRO
Order-to-Cash (O2C)	SD → FI	Billing doc (VF01) posts Debit AR (130000) & Credit Revenue (400000). Flow: VA01 → VL01N → VF01 → F-28
Inventory to Delivery	MM → SD → FI	Goods Issue (VL02N, Mvmt 601) reduces stock and posts COGS to GL 500000 via GBB key
Revenue Recognition	SD → FI → CO	Billing posts revenue to GL 400000 and to CO-PA for segment profitability reporting
Credit Management	SD ↔ FI	Sales order (VA01) checks customer credit limit (FD32). Blocked orders released via VKM1

8. Tech Stack

Component	Details
ERP Platform	SAP ECC 6.0 / SAP S/4HANA (blueprint compatible with both versions)
Modules Covered	FI (Financial Accounting), MM (Materials Management), SD (Sales & Distribution)
Database	SAP HANA / Oracle / MaxDB
Config. Tool	SPRO — SAP Project Reference Object (Implementation Guide / IMG)
Reporting	SAP Report Painter, SAP Query, ABAP List Viewer (ALV Grid)
Integration Tech.	IDOCs, BAPIs, ALE for cross-system and cross-module communication
Programming Lang.	ABAP — Advanced Business Application Programming
Operating System	SUSE Linux Enterprise Server (SLES) / Windows Server 2019

9. Unique Points

- Fully India-localized design — GST via TAXIN procedure, April–March fiscal year variant V3
- Dual-plant setup (BP01 Bhubaneswar + BP02 Cuttack) enables realistic multi-location inventory management

- Centralized Purchasing Organization BSPO supports group-level procurement contracts across all plants
- Automatic account determination (OBYC) eliminates all manual FI postings triggered by goods movements
- Credit management tightly integrated across SD and FI — real-time credit exposure checks on every order
- Release procedure configured for high-value Purchase Orders (> INR 5 Lakhs) ensuring internal controls

10. Future Improvements

- Extend blueprint to include PP (Production Planning) module — Bill of Materials, Work Centres, Production Orders
- Integrate SAP HR / HCM module for payroll processing linked to FI cost centres and profit centres
- Implement SAP Fiori dashboards for real-time monitoring of inventory levels, procurement KPIs, and sales metrics
- Plan SAP S/4HANA migration roadmap — Universal Journal, Embedded Analytics, simplified data model
- Configure EDI / IDOC for automated purchase order exchange with key vendors (Tata Steel, Hindalco)

11. Conclusion

This blueprint document defines the complete SAP organizational structure and configuration framework for BlueStar Manufacturing Pvt. Ltd. The design covers all three core functional areas — Financial Accounting (FI), Materials Management (MM), and Sales & Distribution (SD) — with realistic master data, detailed SPRO customization steps, and cross-module integration flows. The blueprint is fully aligned with Indian regulatory requirements including GST and the April–March fiscal year, and provides a solid foundation for a real SAP implementation or further module extensions such as PP, HR, and an SAP S/4HANA migration.
